Reference letter for The Steam Team

Just Veggies is an agro processing business with a high demand for steam. We decided to look at changing our hfo fired boiler to a Thermax Combloc wood fired boiler. The new boiler has been operational for over 8 months. We are extremely happy with its performance and our steam cost per kg has dropped by 80%. The Steam Team through Mike Gurney lead us through the process including a trip to Kenya and India to see the Combloc's in action.

I invite you to come and see our boiler in operation. I was equally impressed with Mike's professionalism and expertise.

I would highly recommend The Steam Team to anyone.

Regards

Lex Campbell
Joint CEO
